TID-32/64
12 February 1964

MEMORANDUM FOR: Assistant for Plans and Development

ATTENTION:

25X1

SUBJECT:

Modification
Device

Point Transfer

25X1

1. TID has reviewed the [] proposal for modification of the Point Transfer Device to include a precision coordinate measuring capability. TID has a growing need for such a stereo measuring instrument, particularly one such as this that will accommodate stereo pairs of different scale.

25X1

2. Request P&DS take necessary action to incorporate this modification of the Point Transfer Device now under fabrication. Also request the readout of the comparator to be telecomputing system punched card rather than ON-LINE.
